

2008 FUMIGATION CERTIFICATION / RECERTIFICATION

**WEDNESDAY,
DECEMBER 17TH,
2008**

*Sponsored by:
Nebraska Grain and Feed As-
sociation*

WORKSHOP

**HOLIDAY INN
KEARNEY, NE**

*In cooperation with:
Nebraska Department of Ag
Carl Reed and Poppe Enter-
prises*

Certification / Recertification Program Description

This workshop provides an opportunity for commercial pesticide applicators to test for Initial Certification or Recertification in Category 11 (Fumigation). Topics will include Integrated Pest Management (IPM) in stored grain and processed foods, bird and rodent control, sanitation and bin preparation, grain handling and blending, fumigation of steel and concrete bins, grain aeration and drying, keeping fumigation records and a review of current and new Federal and State regulations. As in years past, the NDA will offer exams at the end of the program for those wanting to become initially certified. Exams take approximately 30-45 minutes each and a person must pass at least 2 exams (Core and Fumigation category) in order to become certified. Additionally, the Structural category exam will be offered for those who will be using products such as liquid formulations or rodent baits.

Fumigation Recertification One-Day Program	
8:30	Registration
9:00	Laws and Regulations Update
10:00	Stored-Grain Insects: Identification and Biology
10:30	Break
